Notes:

- 1) Average spot market prices are given in Canadian \$ per metric tonne.
- 2) The data do not reflect special contract or pricing arrangements (which may exist).
- 3) The spot market prices are based on an amalgamation of data from a network of contacts and, as such, do not reflect actual market prices being paid for residential material across Ontario.
- 4) The CSR Composite Index is calculated using a provincial average of multi-material program composition (effective January 2000, the index reflects broker's prices for steel). Details available upon request.
