□ Indicates FOB the municipality

■ Indicates delivery to mill or industry

Notes:

- Prices are for baled post-consumer residential materials (except glass, which is loose).
- Prices are compiled from a range of municipal programs across Ontario combined with information from industry representatives. Therefore, prices may not be the same as actual prices being paid in any given program, and do not reflect special contract pricing arrangements that may exist.
- The CSR Composite Index is calculated using the overall composition of residential Blue Box material recovered and marketed in Ontario. Details available upon request.
