<b>Composite Index</b>							<b>134</b>	<b>95</b>	<b>113</b>	<b>114</b>	<b>131</b>	<b>124</b>	<b>111</b>	<b>145</b>	<b>148</b>

☐ Indicates FOB the municipality

☑ Indicates delivery to mill or industry

Notes:

- Prices are for baled post-consumer residential materials (except glass, which is loose).
- Prices are compiled from a range of municipal programs across Ontario combined with information from industry representatives.  
Prices may not be the same as actual prices being paid in any given program.
- The CSR Composite Index is calculated using the overall composition of residential Blue Box material recovered and marketed in Ontario as reported from the approved 2005 WDO datacall with some additional allocations to material categories. It does not include mixed plastics. Mixed glass includes coloured glass. ONP8 includes a quantity of lower grade papers sold at lower prices. Composition figures are updated annually. Details available upon request.
